“Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it is the only thing that ever has.”— Margaret Mead

“Why do some people as soon as animals are declared ‘recovered’ and no longer at risk of extinction want to start killing them? And why do government agencies responsible for ‘managing’ the animals allow this?” – Anna Murphy

PLASTIC POLLUTION

Companies should be responsible for their Contribution to Plastic Pollution

For your temporary comfort, it doesn't permanently kill the innocent life of all living beings on the earth, the plastic”— Sir P.S. Jagadeesh

Companies Should be Responsible for Their Contribution To Plastic Pollution

Companies Should be Responsible for Their Contribution To Plastic Pollution and avoid making us believe that we can not live without plastics. After being tagged to various plastic packagings found in the oceans. The involved companies are now driving a narrative that doesn't sit well with our environment. They are blaming it on our consumption and use of their plastics packagings. Forgetting that, we promote their business and they do need us. And if plastic pollution continues important things around us, it also affects you. It's wrong how they keep “bragging” to our faces and, seem to imply that we are the cause of the problems and we can't live without plastics. Many years ago, before corruption, greed for profit, and dishonesty was a cool thing. Almost all decisions considered their impact on our environment. The packaging was minimal and the material used was eco-friendly. That is exactly what we need at this age.
